OLABISI ONABANJO UNIVERSITY
FACULTY OF THE SOCIAL SCIENCES
DEPARTMENT OF GEOGRAPHY AND REGIONAL PLANNING
2005/2006 RAIN SEMESTER EXAMINATION

COURSE: Introductory Cartography (GRP 202)

INSTRUCTION: Answer any three questions

TIME ALLOWED: 2 Hours

- 1(a) What is Cartography?
- (b) Justify the list of instruments you would recommend for a cartography laboratory.
- 2(a) What do you understand by Map Scales?
- (b) Describe, using illustrative examples how
 - (i) The Square Method and
 - (ii) The Method of Similar Triangles
 are used to change the scale of a map.
3. There is an almost unlimited variety of maps. However, we can classify maps according to three broad categories. Identify the main classes of maps that can be recognized under each broad group.
4. "Rudimentary cartography existed among the early people" Discuss this i
5. Choose any TWO Conceptions of Cartography and explain their basic characteristics with appropriate illustrations.
